OVERVIEW

Tom Perkins is an associate in the firm's Corporate practice. He advises clients on a broad range of commercial, technology, and data protection matters. Tom focuses his practice on technology-driven transactions and regulations, data protection, and the regulatory frameworks governing emerging technologies, including artificial intelligence (AI).

Tom has extensive experience drafting and negotiating a wide variety of commercial agreements, including supply of goods and services agreements, distribution agreements, sponsorship agreements, research and collaboration agreements, funding and grant agreements, and industry-standard terms and conditions. His technology-focused practice includes drafting and negotiating software development and licensing, Software as a Service (SaaS) procurement, and subscription agreements for academic publishers.

This is a temporary biography. A complete biography will be available soon.

PROFESSIONAL BACKGROUND

Additionally, Tom also advises clients on regulatory compliance matters relating to data protection, artificial intelligence, and intellectual property licensing. His experience includes advising on the application of the EU AI Act, AI deployment and governance, and data licensing in the context of AI training and deployment.
