OVERVIEW

Michael Goodfried is a senior staff lawyer with the e-discovery analysis and technology (e-DAT) group. Michael manages all aspects of the e-discovery process, from advising clients on document retention and information governance, through document production and litigation support. Michael has managed e-discovery on multi-billion dollar lawsuits, government investigations, and international arbitration. Michael's role also includes evaluation and testing of new e-discovery software; training lawyers and staff on the use of e-discovery software; and managing Legal Holds for several clients. Michael focuses on utilizing advanced technology such as Generative AI to provide the most efficient service to his clients.

PROFESSIONAL BACKGROUND

Michael is a frequent speaker at CLEs. He is a graduate of the University of California, receiving a degree in economics. He then attended Boston University School of Law, where he graduated with honors. He was an editor of the Annual Review of Banking Law, and published an article on mergers and acquisitions.
