## OVERVIEW

Dennis Majewski is a PTO-registered patent lawyer with an advanced degree in electrical and computer engineering. Dennis has a comprehensive patent protection practice serving multinational corporations, mid-sized companies, and emerging companies. His practice includes patent prosecution; conducting product clearances and noninfringement investigations; and advising on IP acquisitions, dispositions, and portfolio management. He works with clients to develop foreign patent procurement strategies.

Dennis has extensive experience in semiconductor technology. His experience includes logic and circuit design, fabrication techniques, yield improvement, fabrication machines, quantum circuits, and use of artificial intelligence in designing complex chips.

Dennis also has extensive experience with medical devices and diagnostics including the use of artificial intelligence to provide treatment recommendations, clinical decision support, and improved patient engagement and outcomes.

## PROFESSIONAL BACKGROUND

Prior to his career in law, Dennis worked in the high technology industry, where he was a senior electrical design engineer at a multinational automotive parts manufacturing company and a senior electrical design engineer at a multinational telecommunications company. At these companies, his work focused on developing automotive control systems and inertial and pressure micro sensors.
